

Free Student Subscription 2021-22 (Expires – June 30th, 2022)

To establish complimentary student access to our Research Reviews for the **current** school year (or renew your existing access), please read carefully and complete the following steps:

1. Copy and paste this link into your browser bar: <https://www.rrseducation.com/free-student-subscription-2021-2022>
2. If you already have an account on the site: please Log In at the top of the form.
3. If new to our site: Please set up your account using the top section of the form and proceed. Be sure to set up your account using your FULL NAME as it should appear on any online course certificates or seminar registrations in the future and also use a PERSONAL EMAIL, so you continue to receive email messages from RRS Education after graduation.
4. NOTE: In the field for 'Practitioner Licence #' just enter a 0 and once you graduate and are assigned a number you can go in and edit your profile to include it. That number is required by most jurisdictions on the course certificates generated by the RRS site for continuing-education hours/credits.
5. Click on the 'I Agree to Terms' button
6. Click the 'Process Subscription' button

You are now set up in your Free Student Plan. Your personal account on our site also allows you to purchase Online Courses and register for Seminars, which you may want to take advantage of once you graduate and go into practice.

For as long as you are a student, you need to contact us at the end of each school year to get a new registration link for the coming school year so that you continue to have free access.

Once you graduate, you will no longer receive free access to the Research Reviews. We hope you value the service and will log in with your account and go to the Research Reviews section of the site to subscribe to one of our professional plans and use the CODE: RENEW123 to receive a 10% discount on any professional subscription plans.

If you join the Canadian Chiropractic Association (CCA), you will be entitled to free access through that membership. Be sure to inquire about the instructions and link for establishing this access directly through the CCA, which also posts the information on their website to logged in members.

If you join a national association in other countries, you may also be entitled to the Research Reviews Service through your membership to that association, so be sure to ask them if they are an RRS Education partner.
